

Pre-Health Professions at Truman State University

February 14, 2018

Spotlight on Health Professions:

Occupational Therapist

What is an Occupational Therapist?

OTs work with patients and create treatment plans that include goals and activities to achieve those goals. OTs help patients with long-lasting disabilities learn new or different ways to do everyday activities. They also give recommendations for adaptations as well as educate family and employers. OTs work in a variety of settings, including nursing homes, schools, hospitals, or private practices.

How do you become an Occupational Therapist?

Practicing as an OT requires a master's degree or doctorate degree in Occupational Therapy. OTs are also required to be licensed through the National Board for Certification in Occupational Therapy.

What is required to go to Optometry school?

These are the Truman equivalent of the general requirements to go to Occupational Therapy school:

- BIOL 100 or 107
- BIOL 214 & 215 or 325 & 365/365L
- HLTH 200
- PSYC 166
- PSYC 366
- PSYC 377
- SOAN 190 or 191

Where can I find more information?

- The American Occupational Therapy Association (<https://www.aota.org/>)
- Missouri Occupational Therapy Association (<https://www.motamo.net/>)
- Truman's PT/OT Club (<http://preptot.truman.edu/>)

Did You Know?

We have overviews of all pre-health professions requirements & ideas on shadowing, volunteering, & research in Kirksville.

Visit <http://excellence.truman.edu/advising/pre-health-professions/> for more information!

We have a table with great information regarding pre-health professions, schools, admissions tests, and other pertinent information. We have test prep materials available for checkout.

The information table is located in the Kirk Building hallway, outside of the freshmen academic advising office (Kirk Building 107). To check out materials, contact [Brittany Harden](#) or make an appointment to meet with her.

We have an archive of all of the previous newsletters.

Click [here](#) for more information!

We have an MCAT/Health Admissions Test Prep Course.

The course is currently titled INDV 320: MCAT/Med School Success Seminar — it is open to all students who will be taking an admission test for a health professions school (MCAT, DAT, OAT, etc.). If you have questions regarding this course, please contact [Brittany Harden](#).

Meet with a pre-health advisor or the pre-health coordinator:

If you are in your second year at Truman AND majoring in Biology, Chemistry, Exercise Science, or Health Science:

- You should meet with the designated pre-health advisor in your major. Depending on the department, some major advisors have a specific pre-health profession and some are versed in multiple pre-health professions.

If you are a first-year student OR a first-semester transfer OR are majoring in anything **other** than Biology, Chemistry, Exercise Science, or Health Science:

- You should meet with Brittany Harden to help guide your preparation for health professions school. You may call 660-785-7403 or stop by the advising reception desk in Kirk Building 107 (Monday-Friday 8am-5pm) to make an appointment.
